

**Wydział Chemii Uniwersytetu Łódzkiego
zaprasza 25 maja 2017
w gmachu Wydziału Chemii przy ul. Tamka 12 na**

Xth International Mini-Symposium
Current Problems in Organic Chemistry

**Selenium containing compounds on the borderline of
chemistry, biology, and medicine**

and

Young Chemists Workshop on Heteroatom Chemistry

Invited Speakers

Antonella Capperucci - University of Firenze
Risto Laitinen - University of Oulu
Jacek Skarzewski - Wrocław University of Science and Technology
Claudio Santi - University of Perugia
Piotr Guga - Polish Academy of Sciences, Łódź
Stefano Menichetti - University of Firenze
Jacek Ścianowski - Nicolaus Copernicus University in Toruń
Wolfgang Weigand - University of Jena
Jarosław Lewkowski - University of Łódź

**The 200th Anniversary of Selenium
Discovery by J. J. Berzelius in 1817**

Young Chemists

Damiano Tanini - University of Firenze
Tomasz Cierpień - Polish Academy of Sciences, Łódź
Francesca Giulia Nacca - University of Perugia
Agata Pacuła - Nicolaus Copernicus University in Toruń
Hassan Abul-Futouh - University of Jena
Katarzyna Jastrzębska - Polish Academy of Sciences, Łódź
Luca Sanciento - University of Perugia
Małgorzata Wąsińska - Wrocław University of Science and Technology
Artur Mardyukov - Justus Liebig University Giessen
Marta Morawska - University of Łódź
Marianna Pensa - University of Perugia
Róża Hamera-Fałdyga - University of Łódź
