

## Program

12:15 – 13:20

Lunch

13:25

Opening

**Session 1:****Chairman: Prof. Piotr Kiełbasiński**

13:30 – 14:00

IL-1

**Peter R. Schreiner** - Justus Liebig University in Giessen  
*Carbohydrate formation in the absence of biosynthesis*

14:00 – 14:30

IL-2

**Łukasz Albrecht**- Lodz University of Technology  
*Asymmetric organocatalysis in the synthesis of biologically relevant heterocycles*

14:30 – 15:00

IL-3

**Filip Bureš** - University of Pardubice  
*Dicyanopyrazines: Organic push-pull molecules with exciting photoredox activity*

15:00 – 15:30

IL-4

**Daniel Werz** - Technical University Braunschweig  
*Gain by strain: News from donor-acceptor cyclopropane chemistry*

15:30 – 16:00

Coffee break

**Session 2:****Chairman: Prof. Michał Pietrusiewicz**

16:00 – 16:30

IL-5

**Hans-Ulrich Reissig** - Free University Berlin  
*Axially chiral alkoxyallenes in natural product synthesis*

16:30 – 17:00

IL-6

**Dorota Gryko** -Institute of Organic Chemistry PAS Warsaw  
*Porphyrinoids as catalysts for light induced C-C bond forming reactions*

17:00 – 17:30

IL-7

**Peter Metz** - Technical University Dresden  
*Sulfur: an enabling element for the total synthesis of a complex diterpene isolated from higher termites*

17:30 – 18:00

IL-8

**Michał Rachwalski** - University of Łódź  
*Chiral aziridine alcohols as efficient catalysts in asymmetric synthesis*

18:30 – .....

Garden Grill Party
